

Camp Properties Report

By Properties VP Scott Suchan

Check out the roof raising on the new staff building at Fire Mountain Scout Camp. The beams we are putting up are for the covered breezeway between the staff core building and the new shower house/laundry building.

Skilled help needed!

We are still looking for a mason to do the CMU block shower house/laundry building. All of the masons in our area are really busy, and doing this one-off project appears to just be more than anyone can bite off right now. Please direct any leads to Scott Suchan at (425) 232-5901 or at ssuchan@coastalbank.com.

The pictures of the cabins show #5 and #6 being painted. We hope to have 8 new cabins (with two bunk beds each) ready for staff occupancy before summer camp!
