

Hello Scouts and Families,

You may have heard by now that the 2021 National Jamboree has been postponed. While Scouts and Scouters across the country have been looking forward to this event – previously scheduled for July 2021 – the wide-ranging implications of the COVID-19 pandemic have made it difficult to guarantee the health and safety of the participants, staff, and communities involved in the Jamboree.

The Jamboree task force is reviewing options for a new date for the event, and we will keep you updated as information is made available.

Until we have further guidance on a new date, we will pause our development and recruitment for the Mount Baker Council Jamboree Contingent. Once we are able to update our plans, we will announce next steps for Council Scouts and Scouters to join our team in attending this rare event.

Those of you who had already signed up should have received direct communication about any deposits and/or payments you have already made. If you have not, please reach out directly to the Jamboree Contingent Co-Chairs.

For more information on this decision you may visit <https://jamboree.scouting.org/>. There is also an [FAQ document](#) which will provide additional information.
