

TRAVEL WITH US

THE NEXT CHAPTER

We are excited to share with you all one of our newest adventures - Terra Madre Adventures - we will discover the world in person, introducing our guests to some of our favorite flavors in the world through travel. So pack your bags and get ready for our first adventures in Sicily.

Salute!

Danny & Michelle

A SICILIAN DREAM

Our Sicilian itinerary will include a range of culinary and cultural adventures daily, including local cheesemakers, wineries, breweries, UNESCO World Heritage sites, and a hike of Mount Etna, all from a home base we've secured for our private group of eight to ten guests per trip.

The Rosso Cosenza family estate is a rare example of over 300 years of tradition and historical continuity. The property consists of the Casa Padronale and the Case del Baglio, which overlooks the courtyard typical of Sicilian villas. Tucked into 48 hectares of olive groves, the estate is centrally located, immersed in the countryside but only a few kilometers from the sea and the incredible heritage cities of the Val di Noto; it is the ideal location for our home base of events. Giuseppe Rosso and his son, Marcello Rosso, oversee the hospitality and agricultural estate in Chiaramonte Gulfi, which has more than 2,500 centuries-old specimens of olive trees of the prized "Tonda Iblea" variety. The remaining part of the estates and agricultural lands that comprise the company extends over 23 hectares. It is distributed in various districts in the Chiaramonte Gulfi, Ragusa, and Scicli municipalities.

SICILY: INSIDERS LOOK AT LOCAL

We'll gather fresh sausage and cheeses, learn techniques from local craftsmen; Visit local fishermen as they come to port, and select the evening meal from their catch.

Chef Danny Mellman will be on hand throughout the adventure, cooking up what we've collected for dinner during the day's adventure. Lunches at wineries or breweries have been selected specifically for our group. Our partners Marcelle and Flippo Sardo will lead the way during tours of small cities with insights you only get with locals. The Sardos also oversee their fourth-generation olive grove, producing an incredible DOP extra virgin olive oil. Guests will be treated to a fantastic meal on their estate as your adventure team gathers to showcase their love of Sicily.

We can't begin to explain all the intricacies of the tours, as each time we visit, the four of us come up with new ideas and places to visit. Guests who want to extend their time in Sicily will receive additional self-guided recommendations upon request. Or just plan to come with us on our next adventure because no tour will be precisely the same. This ain't no giant tour-operator adventure; these curated adventures are being created with flexibility in mind, and days will be tailored for our guests.

SICILIAN TOUR DATES

June 19 to 25, 2024

Travel Dates - Depart US June 18/Arrive Sicily 19

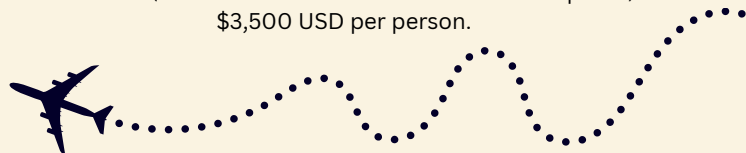

September 15 to 21, 2024

\$3,500 USD per person.

BEACH IT BELIZE

Belize it or not, we still have ongoing projects on Ambergris Caye. We sold our resort in 2022 but still employ our landscaping team and property manager, who oversees our greenhouse and two-bedroom/one-bath vacation spot.

Additionally, we have a one-bedroom bayside loft at luxury resort complex Sunset Caribe available for rent. We can help design a great vacation, whether a long weekend fishing trip or a weeklong journey to discover this beautiful island paradise with incredible snorkeling and diving. A fly fisherman's dream is a direct flight from Atlanta and most major airports across the US. Drop us a line for more information.
