

Animal Communication

Zen Mind / Beginner's Class

A Two-Part On-line Webinar

Learn to communicate with animals using their unique language! The language of animals is telepathy, and each of us was born with this gift for non-verbal communication, just like the animals. But we have forgotten how to use it.

In this friendly and non-competitive classroom, you will learn the six types of telepathic skills, receive guidance on how to connect with your animals friends, and which questions to ask.

Part II is an open-forum Q & A, review, a chance to practice with animals through photos from wherever you are (It works!) and to receive real-time feedback and help with trouble-shooting.

- ▶ Learn to telepath with animals.
- ▶ Discover your unique style
- ▶ Create better understanding.
- ▶ Transform relationships!

When: Sunday, March 19th 2023 &
Sunday March 26th 2023
