**Please note that riders will not have access to the track before 6pm.**

**Race 1: Tempo** – All riders start from the rail and race for a set number of laps. After the first 4 laps, the bell will be rung to indicate the start of the point laps. The first rider across the line in each lap will be awarded 1 point, including the final lap. Any rider that gains a lap is awarded 10 points; any rider that loses a lap is deducted 10 points.

**Race 2: Keirin** – The Keirin is a 5 lap race with two laps rider behind a pacer. For the **first lap only** riders must maintain position behind the pacer in numerical order as drawn to begin the race. After the first lap the riders may change position but must remain behind the pacer for the remaining paced laps. The pacer will gradually increase speed each lap and will pull off on the front straight with THREE laps remaining after which time the riders are free to race for the remaining distance.

Winners will advance to the major finale, and the remaining riders will race in the minor finale. The finale will take place after the completion of the Scratch race.

**Race 3: Scratch** – A basic mass start race. All riders start from the rail and race for a set number of laps. A bell rings with one lap to go. The final placings are determined during the final sprint, taking into account laps gained.
