

Greeting 8th – 12th Grade Students and Parents from your Counselor's office!

There are several college fairs happening in our Bay Area in the next few weeks. College fairs are a great opportunity to check out some colleges that you are interested and to discover new colleges that you might never have heard of or thought about before. At the fairs, you will be able to meet and talk to the representatives from the various colleges and receive application and financial information. So, go prepared with your questions!

This is another great opportunity for you to gather information from these colleges without having to drive anywhere! Please stop by their tables and give them a warm RCS welcome!

Have a great day!
