# Transitions of Care (TRC)

Released as a new HEDIS hybrid measure in 2018

Aims to capture discharges that meet all components

Eligible population 18 and older; exclusion hospice

# The Objectives

The Four Components of TRC

What meets Criteria

What is Key to TRC

What is Mercy Care's Role

Where to find Resources

# The Four Components of TRC – also called sub-measures

Notification of Inpatient Admission

Receipt of Discharge Information

Patient Engagement Post-Discharge

Medication Reconciliation Post-Discharge

# Notification of Inpatient Admission

Documentation  
of receipt of  
notification of  
inpatient  
admission

Date of receipt  
= day of  
admission or  
the following  
day

Date  
notification  
received must  
be clearly  
evident

# Receipt of Discharge Information

Documentation  
of receipt of  
discharge  
information

Date of receipt  
= day of  
discharge or the  
following day

Date discharge  
information  
received must  
be clearly  
evident

# Patient Engagement Post-Discharge

Documentation of patient engagement within 30 days after discharge

Engagement can be in the form of an outpatient visit, visit in the home, or via telehealth

# Medication Reconciliation Post-Discharge

Medication Reconciliation documented as reviewed on the day of discharge through 30 days after discharge (for 31 days total)

Can only be conducted by a prescribing provider, a clinical pharmacist, or a registered nurse

# What meets Criteria for TRC

# What meets Criteria for...

## Notification of Inpatient Admission

Communication  
from ER or  
inpatient providers  
or staff

Communication  
through HIE, ADT,  
or EMR

Communication  
from Mercy Care

# A few more examples..

## Notification of Inpatient Admission

The PCP or ongoing care provider admitted member or placed orders for tests

The PCP or ongoing provider completed a pre-admission exam; or was notified of a planned admission

A specialist admitted member and notified the PCP or ongoing care provider

# What meets Criteria for... Receipt of Discharge Information

Not Receipt of Notification

Receipt of Information

# Information to be included at a minimum

- Practitioner responsible for care during inpatient stay
- Procedures or treatment provided
- Discharge diagnoses
- Current medications
- Test results
- Instructions to the PCP or ongoing care provider for patient care

# What meets Criteria for... Patient Engagement Post-Discharge

Outpatient Visit: Face to face in-office or in-home

Telehealth Visit: Real-time via telephone or video-conference

# What meets criteria for... Medication Reconciliation

## Documentation of current medications

With evidence of  
med reconciliation  
at time of post-  
hospital  
engagement

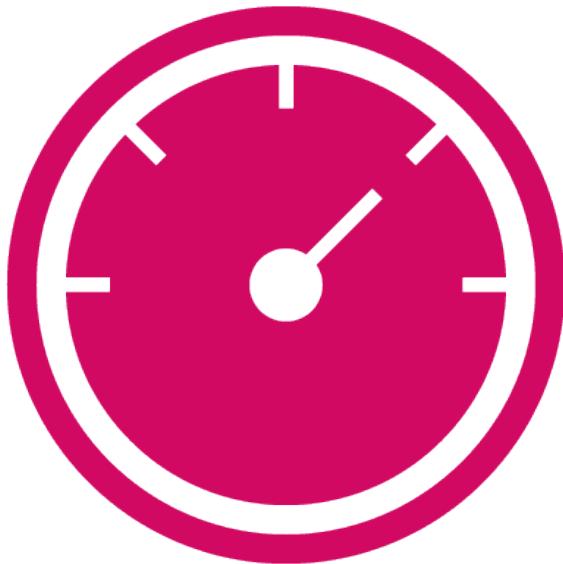

With evidence of  
med reconciliation  
in the discharge  
summary (filed in  
outpatient record)

With evidence of a  
completed med  
reconciliation in a  
chart notation

# What is Key to TRC?

# Key Item: Timing

- Clear evidence of date of receipt
- Fax availability – weekends count
- Upload/shared EMRs
- Follow up – ER referral
- Patient engagement on the day of discharge does not count; med reconciliation does

# Key Item: Documentation

- Location
- Updates
- Presence of current medications – either within note or in chart
- A review of current med list and discharge med list: need notation both were reviewed on the same DOS

# Other Key Items...

## Acknowledgment

- Inpatient Admission
- Discharge medication

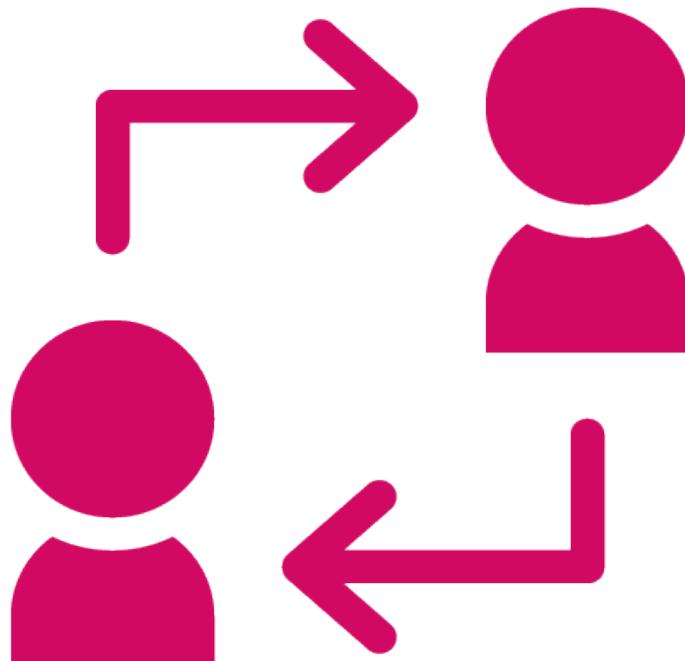

## The Right Provider

- PCP or ongoing care provider

## Source

- One record only
- Notification

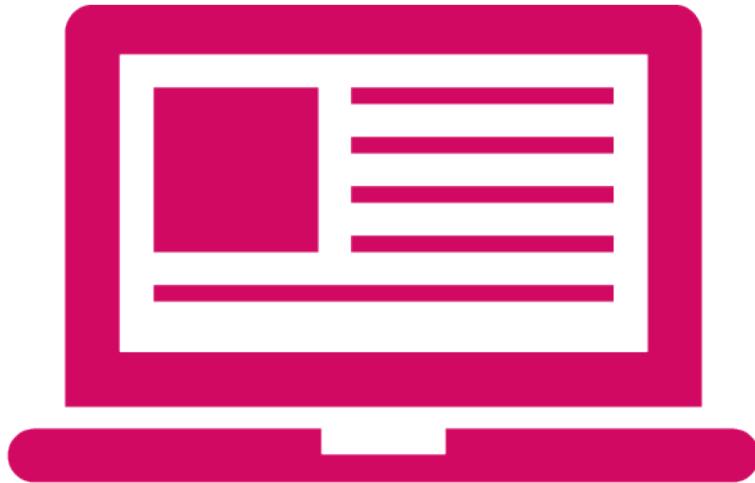

# What is Mercy Care's Role?

Internal: Coordination to ensure timely receipt of Inpatient and Discharge Notification from Mercy Care to Provider Offices

External: Coordination of communication between Hospitals and SNFs and Provider Offices
