

*****This notice is intended for stakeholders interested in information on Electronic Visit Verification****

Webinar Announcement

As of January 1, 2021 and in response to a federal mandate known as the 21st Century Cures Act, the AHCCCS program will begin using an Electronic Visit Verification (EVV) system for selected home and community-based services. The legislation outlines key data points that must be collected and electronically verified, but states create their own systems and decide how to gather and report data, as well as whether to include additional compliance rules.

AHCCCS is using EVV to help ensure, track and monitor timely service delivery and access to care for members. This means AHCCCS wants to use EVV to make sure members get the service that they need when they need them. AHCCCS' contracted vendor, Sandata Technologies LLC, will deliver the EVV system and associated devices, as well as provide system orientation and training to providers.

Many agency providers will use the EVV system provided by Sandata. However, some agency providers may choose to use an alternate EVV system, which is permissible if they meet the business requirements and alternate data collection specifications found on the AHCCCS website (www.azahcccs.gov/evv).

To support providers who plan on using alternate EVV Systems, AHCCCS is hosting a provider agency webinar to address questions about the Alternate EVV System Requirements and Technical Specifications. The webinar is scheduled for June 30th, 2020 from 9:00 am -11:00 am. [Please click here to register for the webinar.](#)

Please send questions that you would like AHCCCS and Sandata to discuss during the webinar to evv@azahcccs.gov.

To ensure you are informed of information as it becomes available, please sign up for our constant contact email list located on our website at www.azahcccs.gov/evv under the "Stay Informed" tab.
