Annual Meeting Update

Dear Cities Initiative Colleagues:

The Great Lakes and St. Lawrence Cities Initiative's Annual General Meeting (AGM) is back again and will be held virtually this year on August 25 and 26. The program is still in development, but we are excited to share our theme: "Climate Change - 2021 and Beyond." While the AGM will be held online, it will be interactive and collaborative.

CLIMATE CHANGE: 2021 and Beyond
Preparing our communities for the future.

Some of the key subjects we will be exploring include:

- Understanding climate change – physical changes, impacts and threats in the region over the next century
- What water levels will look like in the basin in the future
- Adapting to the physical and socio-economic impacts of climate change in your community
- How to prepare our cities for the identified Impacts of climate change

Through the power of technology, you will have a chance to network with your colleagues, hear from political leaders, and exchange solutions to challenges facing Great Lakes and St. Lawrence cities. Registration information will be available soon, so keep your eye out for a follow-up communication.

Sincerely,

Mayor Walter Sendzik
Chair, The Great Lakes and St. Lawrence Cities Initiative
