What the New Tax Law Means for Family Child Care

The new tax law passed by Congress contains many changes that will affect most taxpayers. Family providers can expect some major changes in their taxes starting in 2018. How should you prepare for these changes?

- New 100% bonus depreciation rule will eliminate the need to depreciate most everything
- How the new pass-through deduction will reduce your federal income taxes
- Should providers incorporate to take advantage of lower corporate tax rates?
- With new tax brackets and changes in the standard deduction and exemptions, how will this affect paying estimated taxes?
- Do these new rules affect how providers can deduct their business expenses?

**Tom Copeland will explain the changes and answer
all of your questions on the new tax law
in a live webinar coming only to the Child Care Council.**
