

Sun. 10 am service instruction

First, go to the link www.tinyurl.com/GSPVirtual at any time after about 9:45. We start the stream up at that time so people have time to find the link.

Second, scroll around looking for a link that is red with white print and says **LIVE**. Many people find they have to scroll lower on the screen *with your mouse or trackpad hovering over the left set of menus on that page*, but it's usually on the left side. It might not show up until as late as 9:50, so it's good to give it some time, due to Internet delays.

Once you have clicked on the **LIVE** button, wait patiently for as long as a minute.
