

Antique Gas and Steam Engine Museum

HOLIDAY LIGHTS AT AGSEM

12/6, 12/7, 12/13, 12/14, 12/20 & 12/21 2024

2040 N. SANTA FE AVE., VISTA CA 92083

Dear Community Partner,

I hope this message finds you well. I am reaching out on behalf of the Antique Gas & Steam Engine Museum (AGSEM) in Vista, California. AGSEM, a 501(c)(3) nonprofit organization, is dedicated to preserving our community's rich agricultural and industrial history through education, preservation, and public events.

We are thrilled to announce our upcoming Holiday Lights event, an annual celebration that brings families and friends together to enjoy a magical display of lights, decorations, and holiday cheer across our historic grounds. This event not only spreads joy but also serves as a vital fundraiser for the museum, with all proceeds directly supporting AGSEM's preservation efforts, educational programs, and community outreach.

To make this event a memorable experience for our visitors, we kindly request your support through a donation. Your generous contribution—whether in the form of holiday decorations, gift items for our Christmas tree silent auction or monetary support—would be instrumental in helping us create a festive and welcoming environment. As a 501(c)(3) nonprofit, every donation we receive makes a direct impact on the museum and our community. Donations to AGSEM are tax-deductible, and we would be delighted to recognize your company on event signage, in our promotional materials, and across our social media channels.

Your support will help us ensure that AGSEM continues to serve as a hub of education, culture, and holiday tradition for families in Vista, North County San Diego, and the greater community.

Thank you for considering this opportunity to partner with us for the Holiday Lights event. Together, we can make this holiday season a truly memorable one for our community. If you would like to discuss this opportunity further or have any questions, please feel free to reach out directly to events@agsem.org.

Warm regards,

Antique Gas & Steam Engine Museum
