Lab Services

START. GROW. RUN

## SPECIMEN COLLECTOR STAFFING

Every minute you spend worrying about your collector program is one you could invest in growing your laboratory. We can help!

### Let Lighthouse Lab Services take care of the administrative headaches by:

- Recruiting, vetting, and replacing specimen collectors for your operations across the US.
- Creating a predictable and consistent way for you to compensate your collection workforce.
- Verifying the quality of your collection team through reference checks, background checks, and additional screening as requested.
- Administering error-free payroll and offering benefits to keep your collection workforce happy and engaged.
- Offering unparalleled, streamlined hiring for onboarding your new accounts on short notice.
- Limit your liability by insulating your lab from inducement claims.
- Online compliance and training modules.

Lighthouse can offer all of this at affordable price. Your lab has a million things to worry about. Let us carry the burden for you.
