

# Lead the Future of Congenital Cardiac Care

## Director, Interventional Congenital Cardiac Catheterization Laboratory

Nemours Children's Hospital, Delaware seeks a **Pediatric and Congenital Interventional Cardiologist** to direct our catheterization laboratory. Join a collaborative and rapidly growing program supported by Magnet-designated cardiac nursing and the enduring financial strength of the Nemours Foundation.

### Program Highlights

- Provide medical leadership of the congenital catheterization program.
- Perform and guide more than 300 annual diagnostic and interventional procedures, including hybrid interventions and transplant surveillance.
- Collaborate with cardiovascular surgery, anesthesia, and hospital administration to ensure seamless care.
- Advance research, device trials, registry participation, and quality improvement initiatives.
- Lead education and mentorship for fellows, residents, and trainee.

### Institutional Strength

- Backed by the Nemours Foundation's long history of financial stewardship and commitment to children's health
- \$130 million Delaware campus expansion — the largest one-year investment in our history
- Integrated Cardiac Center with multidisciplinary expertise and academic partnerships
- Culture that invests in talent, supports perseverance, and enables individuals to flourish

### Position Qualifications

- MD or DO with board certification/eligibility in pediatric cardiology
- Advanced fellowship training or substantial congenital catheterization experience
- Strong record of leadership and academic engagement
- Strong research portfolio and active registry involvement

### Our Mission

- Whole Child Health: addressing physical, emotional, social, and financial well-being
- Building the healthiest workforce to guide families toward the healthiest generation of children
- Driven by values, brilliant problem solving, and stewardship of child health
