Invitation to the 10th 'Utrecht Sessions'

Jan 31st - Febr 1st 2025 Double Outlet Right Ventricle (DORV)

Dear friends and colleagues,

With pride we present the program of our 10th 'Utrecht Sessions' on Double Outlet Right Ventricle (DORV).

The first day of our conference (Thursday January

30th 2025) is in Dutch: this day is intended for parents and patients with this

congenital heart defect, our referring partners and our care partners. [View the](#)

Center for Congenital Heart Defects

The [Center for Congenital Heart Defects](#) is part of the University Medical Center in Utrecht and offers a wide range of diagnostic procedures and treatment for congenital heart defects, in both children and adults. Children are treated at the Wilhelmina Children's Hospital (WKZ); adult patients (Adult Congenital Heart Disease ACHD) at the UMC Utrecht. The two locations are directly linked and collaborate intensively in the UMC Utrecht Center for Congenital Heart Defects. In doing so, we have developed top-of-the range diagnostic processes, care, treatment and research.

We are looking forward to see you on January 31st and

February 1st, 2025 in Utrecht!

Gregor Krings, Bram van Wijk, Paul Schoof, Gabriëlle van

Iperen, Trinette Steenhuis and Heleen van der Zwaan
