

Pediatric Cardiologist

(Echocardiographer)

Minneapolis, MN

The Division of Pediatric Cardiology at the prestigious University of Minnesota is actively seeking a passionate and dedicated full-time board-certified/eligible Pediatric Cardiology Physician with primary focus on echocardiography to join our distinguished team as an Assistant, Associate, or Full Professor.

As Minnesota's leading pediatric cardiology practice affiliated with a top-tier medical school, the Heart Center offers a supportive environment strengthened by a comprehensive team of cardiologists, CV intensivists, care coordinators, and three surgeons—all nestled within a true children's hospital setting on a vibrant academic campus. The Pediatric Heart Center conducts around 12,000 echocardiograms, including over 1,600 fetal echocardiograms annually. Join us to help shape the future of pediatric cardiology and transform the lives of young patients!

About the Appointment:

- Seeking a candidate with a strong interest in transesophageal and fetal echocardiograms.
- Primary responsibilities: performing and interpreting echocardiograms, including trans-esophageal and fetal.
- Clinical duties based at University of Minnesota Masonic Children's Hospital.
- Duties include clinical pediatric cardiology, attending rounds, and cardiology clinics.
- Teaching responsibilities for medical students, residents, and fellows; involvement in curriculum development.
- Participation in research projects and academic activities, with a focus on independent or collaborative research.
- Opportunity for scholarly work, faculty development, and active involvement in national organizations.

Qualifications:

- Board eligible/certified in Pediatric Cardiology
- Must have demonstrated involvement in clinical or basic science research through publications anticipated or published in peer-reviewed journals
- Licensed or ability to obtain Minnesota Board of Medical Practice Licensure

University of Minnesota:

- The University of Minnesota is among the largest and most prestigious public research universities in the nation.
- According to the recently released Blue Ridge report rankings, the Department of Pediatrics is a leader in groundbreaking research, ranked 7th in the country for NIH funding.
- University of Minnesota Masonic Children's Hospital is a top-ranked Children's Hospital that features the Twin Cities widest range of pediatric specialists and 254-staffed beds.

Community Information:

We are based in Minneapolis-St. Paul, a metropolitan region with a population of approximately 4 million. You'll find excellent public and private school systems, a robust workforce home to 17 Fortune 500 companies, an award-winning culinary scene, museums of all types, outstanding theaters, and a major international airport ranked in the Top 10 Domestic Airports by Travel + Leisure magazine.
