

**Accredited Adult Congenital Heart Center – Tampa Bay Florida
Adult Congenital Heart Disease Cardiologist**

The **Tampa Bay Adult Congenital Heart Center** seeks to add a cardiologist specializing in adult congenital heart disease (ACHD). In addition to board certification in ACHD, the successful candidate will also need to maintain board certification in pediatric cardiology or adult cardiovascular diseases.

The **Tampa Bay Adult Congenital Heart Center** is accredited by the Adult Congenital Heart Association as a comprehensive adult congenital heart disease center. The center represents a 25-year collaboration between the following component stakeholders:

- *Pediatric Cardiology Associates* (affiliate of Pediatrix Medical Group). A group of 14 cardiologists including two ACHD cardiologists with offices throughout the Tampa Bay metropolitan area. Pediatrix will employ the newly recruited ACHD cardiologist. *Pediatric Cardiology Associates* also employs 3 advanced practice nurses with one serving the role of ACHD transition clinic coordinator.
- *Florida Medical Clinic* (independent medical group). This organization employs the third physician member of TBACH and offers Adult General Cardiology services in collaboration with our ACHD Center. This experienced Adult General Cardiologist is also board certified in ACHD.
- *St. Joseph's Hospital* (center's primary inpatient diagnosis and treatment venue). The hospital employs 2 full-time congenital heart surgeons, a dedicated congenital cardiac intensive care unit physician and advance practice nursing staff, 3 advanced practice nurses with one serving the role of primary ACHD advance practice nurse coordinator, and supporting all ACHD clinical services including social work and case management.

Clinical responsibilities will include caring for ACHD patients in the outpatient and inpatient settings. An ACHD cardiologist who is board-certified in pediatric cardiology will also rotate on the general pediatric cardiology evening and weekend on-call schedule with 13 other pediatric cardiologists. An ACHD cardiologist who is board-certified in adult cardiovascular diseases will have the opportunity to care for adults with genetic cardiovascular diseases and aortopathy syndromes (e.g., hypertrophic cardiomyopathy, bicuspid aortic valve, Marfan syndrome and related conditions) who have been transitioned out of the pediatric cardiology clinic.

Teaching responsibilities may include participation in the didactic lectures or workshops for the University of South Florida Morsani College of Medicine's fellows in adult cardiovascular medicine, maternal-fetal medicine fellows, residents in pediatrics, medical students, and advance practice nursing students.

Tampa Bay's warm weather affords plenty of opportunities to relish the great outdoors year round. You will live in a region others only get to enjoy on vacation. Golf at one of nearly 100 courses or relax on one of the many pristine white-sand beaches. The area offers an assortment of family venues such as zoos, aquariums, theme parks, and state parks. Additionally Tampa Bay offers access to world-class museums, professional sporting events and the performing arts. There is a wide range of residential choices to fit every budget and lifestyle – whether you are looking for big city downtown living, golf course communities, waterfront lifestyle, majestic horse farms or historic neighborhoods.

Effective November 1st, 2021 Pediatrix will require all employees and new hires to be vaccinated against COVID-19, unless they qualify for an approved medical and/or religious exemption.

Mednax, Inc. and its affiliated practices operating as Pediatrix® Medical Group (Pediatrix) are one of the nation's leading providers of highly specialized health care for women, babies and children. Since 1979, Pediatrix-affiliated clinicians have been committed to providing coordinated, compassionate and clinically excellent services across the continuum of care, both in hospital settings and office-based practices. Specialties including obstetrics, maternal-fetal medicine, and neonatology are complemented by 18 pediatric subspecialties and a newly expanded area of primary and urgent care clinics. The group's high-quality, evidence-based care is bolstered by investments in research, education, quality-improvement and safety initiatives.

Today through almost 8,000 employees in 38 states, dedicated teams including physicians, advanced practitioners, clinical leaders, business and operational experts work together every day to fulfill our mission to *take great care of the patient®*. We invite you to join the Pediatrix® family and help shape the future of health care for women, babies and children.

Pediatrix is an Equal Opportunity Employer

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability or veteran status.
