The Shaker Square Alliance, Shaker Square Area Development, E 130 St Working Group and Ludlow Community Association believe that the vitality of buildings on N and S Moreland is essential to the health of the Buckeye, Shaker Square and Shaker schools neighborhoods.

2962 South Moreland Boulevard is a 14-unit building that has been condemned, boarded and left vacant for over four years. This abandoned property has become a threat to the strength and vitality of the important and historic South Moreland corridor.

Demolition would signal failure by the city and the community to proactively and strategically use the laws and tools available to prosecute a negligent owner. We do not want another vacant lot and we do not want more years of inaction. We want the laws upheld and we want violators held accountable!

Out of respect for the Buckeye/Shaker Square community we ask that you join us in petitioning the City of Cleveland to take all necessary action to save this apartment building and see it restored to residential use.
