## Description

Expressing the belief that progress is seen with an eye to the past as well as the future, the OT-60 proposes a simpler vision of sustainability. The OT-60 heralds a renewed return to the traditional Eastern Mediterranean seagoing style. The perfect combination of the quiet, easygoing lifestyle of sailing and the convenience and space of a power yacht makes the journey as enjoyable as the destination with a very low fuel consumption.

The OT-60 is CE certified as a category A-12 vessel
