

Spring Golf Update

As we wait on the snow to melt we would like to update you on whats in store “fore” the 2022 golf season.

Golf Course

IGM had a productive winter season on the golf course with some of the following projects:

Repair of leaks in the irrigation system and repair of the pump station.

Cleanup on the hill in front of 17 tee and left side of 2 hole.

Aerification and spraying of greens for crabgrass

Spring projects include spraying greens with pre emergence for crabgrass and spring aerification scheduled for March 21-23.

Summer plans include improving the approaches and collars of the greens as well as resodding some more tees.

The long range planning and finance committees are in early stages of addressing cart paths and hope to adopt a plan for this spring. Fall aerification will begin the Tuesday after Labor Day.

Tournaments

We have sent out a preliminary Golf Schedule to help you plan for this year’s events. As always we want to point out schedule is subject to change.

As for events the biggest change involves the Club Championship. The plan is to have an open event with seeding by index(defending champ gets #1seed) and a 32 player bracket. Should we get more than 32 players we will expand the bracket. The deadline to enter will be May 1st and the opening rounds will return to setting up your own game. The final Quarters, semis and finals will be held the last 2 weekends in August with a Labor Day weekend rain date.

We are planning to bring back the Culpeper Open with July 23 and 24 as the dates.

This is the latest update:
