RUN leaders speaking with Asm Boerner-Horvath's staff Celia

RUN has been pushing AB 71 through various committee, and most recently passed through the Appropriations Committee! RUN members have been meeting with Assemblymember staff to ask for their support when AB 71 reaches a floor vote. With the recent legislative announcement including a \$1 billion ongoing budget towards homelessness, AB 71 has become a two-year bill. RUN members are eagerly waiting to see how the budgets will play out.

This summer, RUN is engaged in a "Summer Marathon" training series to get RUN leaders thinking about how we talk about homelessness, how we can best message the issue, and how we can advocate for it. From RUN's first meeting last week, the leaders got deeper into the meaning of our values, overcoming stigmas, and what it means to advocate for EVERYONE! In the coming few session, RUN will further discuss how we can talk about the issue of homelessness in a powerful way, and how to grow the movement.
