Strawberry Kiwi Frozen Mojitos

Ingredients:

1 ½ cups chopped strawberries, frozen
1 ½ cups chopped kiwi, frozen
3 tablespoons simple syrup, divided *
8 fresh mint leaves, divided
3 ounces rum, divided
3 ½ cups crushed ice, divided
Strawberry and kiwi slices, to garnish
Mint leaves, to garnish

Instructions:

In a blender, combine the 1 1/2 cups frozen strawberries, 1 1/2 tablespoons simple syrup, 4 mint leaves, one shot of rum, and 1 3/4 cups of crushed ice (if you have whole cubes, crush them in the blender first). Blend until well combined and slushy-like.

Pour the strawberry mojito into 3 (8 oz) glasses, filling half-way.

Rinse out the blender jug and combine the remaining 1 1/2 cups chopped kiwi, 1 1/2 tablespoons simple syrup, 4 mint leaves, shot of rum, and 1 3/4 cups crushed ice. Blend to desired consistency.

Pour the kiwi mojito over the strawberry mojito.

Garnish with kiwi, strawberry, and mint. Serve immediately.

*Pour equal parts water and sugar in a saucepan. Heat the sugar until dissolved, cool. Store the simple syrup in an airtight container, in the fridge, until ready to use. Remember 1 cup of water and 1 cup of sugar will only yield about 1.5 cups of simple sugar.
