CHEVRON TEXACO PUGET SOUND CHAPTER OF THE
CHEVRON RETIREES ASSOCIATION

NEWSLETTER ISSUE #3

NOVEMBER 2025

CHRISTMAS PARTY

DECEMBER 11, 2025

IVARS SALMON HOUSE

MESSAGE FROM THE BOARD OF DIRECTORS

Hot dry weather is now in the rear view mirror and Fall is definitely here. Hope everyone had a good summer and ready for the holiday season.

During August we held our annual picnic at Lake Sammamish with 26 in attendance. There was concern that due to low attendance at planned luncheons future events would be in jeopardy. Fortunately those in attendance reflected why we even have planned events. There were lots of smiles, conversations and great food, making all the planning worth while.

A recent luncheon was held in Tacoma with 9 attending, only two of which were not Board members. As our members are spread out over a large area, travel distance, transportation access and mobility issues make it difficult for many members to attend. To help members stay involved it has been suggested that anyone in a senior facility may consider inviting others to visit and perhaps have lunch (many locations encourage these get together to promote their facilities and services). In addition, smaller group meetings can be arranged by anyone. Ray, via Constant Contact can help promote any "local event." Board member would be happy to attend if possible.

The upcoming Christmas luncheon is next on the agenda, details forthcoming. Please plan on attending and encourage others, including family and friends. This luncheon is also considered the chapter's Annual Meeting. Board members will be up for election and there is always openings for member to join this fun group. Please consider being part of the team.

A Letter From The Editor

After many years editing this Newsletter Betty Kollen has stepped down. The Newsletter was a casualty of Betty's downsizing to smaller quarters. She remains on the Board and is still a leader of this chapter. Thank you, Betty, for all your efforts. My name is Dennis Lewis and I "volunteered" to follow Betty. The Newsletter will suffer a little because she is tough act to follow. I am going to cut myself some slack, do my best, and my goal is to provide information in an interesting and meaningful way.

To accomplish my goal, I need your help. This Newsletter is not just for you; it is about you. We, as a group, do not get together face to face as much as we used to. Attendance is understandably down at our events, but we still want to know what is going on in everyone's life. This Newsletter provides that opportunity. If you have news about your family; an event, a trip/vacation, a new family addition, send me the information. If you went on a fun trip, we want to know and see some pictures. You added a new grandbaby, we want to know and we really want a picture. News and pictures will help keep us close as a chapter. If you have a question, someone else probably has the same question, let me know and I'll answer here. If you need the answer right away, call any board member and we will do our best to get the answer. I am looking forward to hearing from you. The best way to get information to me is email, but feel free to contact me using mail, text, or phone:

Chevron July–September 2025 Recap

Quarterly results and financial snapshot

- Q2 2025 reported earnings: \$2.5 billion; adjusted earnings \$3.1 billion; Chevron returned \$5.5 billion to shareholders in the quarter and reported record production including 1.0 million BOE/day in the Permian Basin.

July — major acquisition activity

- Completed acquisition of Hess Corporation (closing announced mid-July), creating a larger integrated oil & gas company and adding material assets including Guyana and Bakken positions.

August — operational performance and integration

- Operational highlights: Chevron reported continued strong execution and record company production and emphasized the strategic benefits of the Hess assets for extending production and free-cash-flow growth into the next decade.

September — integration costs, restructuring and commentary

- Transaction closing details and integration moves: Chevron's July closing of the Hess deal led to corporate governance and structural changes as Hess became a Chevron subsidiary.
- Short-term earnings and capex impact: Chevron signaled it expected a third-quarter hit related to the Hess deal of roughly \$200–\$400 million, and increased near-term capital spending tied to newly acquired assets.

What's New With You?

Jean Thurber

Since stepping down from my board position, I've been busy with some travel ... in early March for the annual trip to Reno with 2 sisters, a sister-in-law, and 2 cousins; then mid-March for St. Patrick's Day at a high school friend's place in Sun Valley, Idaho; hosting out of state family (Wrangell, Alaska) that needed a friendly place to stay while here for doctor appointments and then to just plain get off the island where they live in January, February, May, June, July & August. In August, I attended a grandson's wedding in Auburn and have plans to attend his brother's wedding in January 2026 in Hawaii. In early September, 2 girlfriends and I drove to eastern Washington to stay at a son's house in Orondo. While there, we visited Lake Chelan, Wenatchee and Leavenworth. We visited some wineries and enjoyed good food wherever we went. We saw smoke from the big fires over there. Our weather was nice though and I had wanted to visit those places and found someone to go with me. I have one more travel scheduled for this year. I'm heading to Wrangell, AK next week (Oct 21) to spend a week with 2 sisters. I've attended 3 retiree luncheons and the annual summer picnic and was happy to see so many friends. I hope to see some stories of my retiree friends and their travels & fun things done this summer in the newsletter. I always love hearing what is going on with you. We, in the Puget Sound area, are enjoying beautiful fall colors now. Soon we will all be raking leaves and putting our gardens to rest till spring. There is so much work when you're still in your home, but as long as I can do it, I will stay in my home. I'm enjoying good health. Life is good for me!

Northwest/Alaska/Hawaii Area of the Chevron Retirees Association

Rose and Dennis Lewis

We just returned from a tour of the "Islands of New England". We had a great time. We started in Providence, RI, then went to Cape Cod. While in Providence we went to Newport to see how the other half lives. We would not like to live in a 70-room summer cottage, but somehow, they don't seem to mind. I guess you can get used to it. We visited Plymouth to see the "rock". Not very impressive but learning the history of the trip across the ocean and the pilgrims' first few years was really interesting. We toured on a working "Lobster Boat" and learned about the New England lobster industry and helped the lobsterman pull up a few lobster baskets. While on Cape Cod we ferried to Nantucket. The houses looked like normal little cottages, then we learned the median price for a house on the island was 6 million. Luckily, we didn't have our check book. We ended our trip by taking a ferry to Martha's Vineyard and had a "last night" lobster dinner with our tour group. Life is tough!

Les Reams

I retired in 1994. Been busy with home improvement projects, Baja trips, trumpet playing in several wind bands, and senior softball. Judy and I celebrated our 60th wedding anniversary last November 28th. We live in Walnut Creek CA.

Northwest/Alaska/Hawaii Area of the Chevron Retirees Association

Alain Steenbeeke

It's been a busy summer for my family and me. In May, our youngest daughter got married and five days later she graduated from med school and two weeks after that she moved for her residency. She is now a resident doctor at an ER in Ft Worth Texas.

I've been busy swimming at masters meets this summer. In August I competed at the US Nationals Masters swim competition which was held this year at the King County Aquatic Center in Federal Way. What made this one special is that my 91 year old mom drove up from AZ and also competed (unfortunately she was DQ'ed in her one event). I did pretty well in my age group (60-64) and placed 2nd in the 100 free, 5th in the 50 back and 10th in the 100 back.

My mom didn't want to end her swimming career with a DQ, so we decided to compete at the Huntsman World Senior Games in St George, Utah in October. There she won two golds in the 50 and 100 breaststroke. I won a gold in the 50 back and three silvers in the 100 back and 50 and 100 free. It has been fun watching her swim.

What's New With You?

Do you have any news about yourself or other ChevronTexaco retirees that you would like to share? Do you or do you know of any retiree that volunteers, let me know. These comments will be published in an issue of the Newsletter. Just send me a note, email, or text with your information or story. Please include pictures!

After eating our fill of Keith's hamburgers and brats; all the other great salads and dishes, when the picnic ended everyone helped themselves to the blueberries and ripe green plums generously provided by Daryl and Joy Brennick. They were delicious!

It was a great day.

A TIME OF JOY

We will not mourn with sorrow deep.
Or stand by your empty place and weep.
For death's dark veil, we will not fear.
But celebrate the life you held so dear.
Your laughter echoes in our ears.
Your wisdom calms our rising fears.
Your spirit, though it has flown free,
Still walks in every memory.

We see you in the sun's bright ray,
And in the dawning of the day,
Your light remains, a guiding star,
A beacon showing who you are.
For you were more than just a friend,
A story with no final end.
Your joy, your light, your love, your art,
Will live forever in our heart.
