[Your Story, Our Story:](#)

In partnership with the Tenement Museum "Your Story, Our Story" entries invite us to look back, or look closer, at the ways that our families change over time, and how we define our own American identity through the generations. Objects that evoke sounds, smells, tastes and memories connect us to our family's immigrant or migrant heritage. At the same time, our quests for these objects also involve a sense of mystery.

Partnership with the Tenement Museum. The project begins with parents/caregivers sharing with their child(ren) a story about an object that has been passed down or is cherished. It should be an object that represents their family's immigration or migration story. Take a picture of the object and you and your child can write a few sentences to share the story. We laminate and hang the stories on the PS39 fence.
