

Clinical Data Guide for Wave 3: Reference for Finding Clinical Data

With the Epic system implementation spanning over the next several years, the location of patient information will be in-flux until Epic is fully live at all sites.

Specifically, **data from our heritage systems will continue to be incrementally loaded into Epic over the next several months** so you will still need to access heritage systems to view some data which has not yet been imported into Epic.

For simplicity and consistency, if the data from the heritage systems you need to view is not in the date ranges indicated in the table below, please review the data in heritage systems.

Please note, you might see more data in Epic than what is listed in the table below, as additional heritage data is being added incrementally.

Newer versions of the guide will be shared as additional heritage systems data is added to Epic.

| Data Type Category | Data Type Sub-Category | From this Date Range | In this Epic Activity |
|--------------------|---|---|---|
| RESULTS | Discrete Hospitals General Lab and Microbiology | *Heritage Barnabas Hospitals: 4/30/2021 - Current *Heritage RWJ Hospitals: 1/1/2016 - Current | Chart Review → Lab Tab |
| | Discrete Ambulatory Reference Labs (Labs that are sent outside of RWJBH Hospitals) | 1/1/2016 – 4/30/2022 | Chart Review → Lab Tab |
| | Discrete Hospitals Anatomic Pathology | * Heritage Barnabas Hospitals: 4/30/2021 - Current *Heritage RWJ Hospitals: 1/1/2011 - Current | Chart Review → Lab Tab |
| | URG Radiology | 1/1/2016 – 4/30/2022 | Chart Review → Imaging Tab |
| | RWJBH Hospital Radiology | 1/1/2016 - Current | Chart Review → Imaging Tab |
| | RWJBH Cardiology | 1/1/2016 - Current | Chart Review → Cardiology Tab & Media Tab |
| SCANS | Scanned Documents | 1/1/2016 – 2/28/2022 | Document Management Chart Review → Media Tab |
| *TEXTUAL NOTES | Notes | 1/1/2016 – 4/30/2022 | Chart Review → Notes, Lab, Imaging, Cardiology Tabs |
| CCDs | Problems, Allergies, Medications, Immunizations | 1/1/2016 – 3/31/2022 | Reconciliation Activity |
| VITALS | Vitals - last height, weight, blood pressure (Adult) | 1/1/2016 – 4/30/2022 | Review Flowsheet Activity |
| | Vitals - all height, weight, blood pressure, head circumference (Pediatric) | Before 4/30/2022 | Review Flowsheet Activity |

*For all Lab Results:

Heritage Barnabas Hospitals refers to CMC, CMMC, MMC, MSC, NBI, CBMC, JCMC, SBBH; *Heritage RWJ Hospitals* refers to NBUH, SOM, HAM, RAH

*Textual Notes:

Signed notes from the ambulatory EMRs: Documents until 4/30/22 (Epic will not have notes from 5/1/22 until 6/3/22 at Go-Live and may need to refer to heritage data until its loaded).

Signed notes from the hospital SCM: Subset of key documents from SCM such as H&P, discharge summary, consult notes, and daily hospital progress notes, will be available real time. For example, your H&P on Friday, June 3 in SCM will be visible in Epic on the Go-Live Saturday, June 4.

Timeline for additional data loads:

Ambulatory Reference Lab Results, URG Radiology Results, CCDs, and Vitals: First week of July 2022

Textual Notes: End of July 2022

Scans: End of August 2022
