

EPIC ADVISOR ENHANCEMENTS

November 28, 2023 Meeting

Acute -

Approved for Production: Move on 12/05/2023

Item Name	Description	ER #
IP Nutrition MAR History	Medication Administration Record (MAR) History Report added to IP Nutrition Department.	EPREQ0008092
IP Nutrition LDA View	View-only Lines, Drains, and Airways (LDA) information added to the Nutrition Information report for the IP Nutrition Department.	EPREQ0008090
IP Respiratory Aerosol Therapy Medications	Inhalers added to Aerosol Therapy Medications flowsheet row.	EPREQ0008148
IP Foley Report	Updated column names and icons in 'IP Foley Patients: In House Dashboard' report.	EPREQ0015464
Update Burn Treatment & Assessment Flowsheet	Add Four Eyes row in Hydrotherapy Procedures of the Burn Treatment & Assessment Flowsheet.	EPREQ0015514
Update More Activities for Case Management	Add Results Review in More Activities for Case Management.	EPREQ0015787

Ambulatory - PROVIDER

Approved for Production: Move on 12/05/2023

Item Name	Description	ER #
Update Scheduling Contact QR Code	Add a broader contact number for Central Scheduling to the QR Code in the Wrap-Up Tab and provide a speed button for ease of use.	EPREQ0012946

Acute - PROVIDER

Approved for Production: Move on 12/05/2023

Item Name	Description	ER #
Central Line Bedside Procedure Note Indications	Adding additional indications to the central line bedside procedure note.	EPREQ0011741
Blood Product Consents for Non-English Patients	Non-English versions of the blood and telephone blood consent forms are being added for patients with a preferred language other than English.

Update More Activities for Case Management

Application: Clinical Case Management
Owner: Leslie Fernandez

EPREQ0015787

Add Results Review in
More Activities for Case Management.

The image displays two screenshots of the Epic Hyperspace interface for a patient named Lon Apple. The top screenshot, labeled 'Before', shows the 'More Activities' dropdown menu with options like 'Advance Care Planning', 'Annotated Images', 'BPA Review', 'Care Everywhere', 'Care Teams', 'Document List', 'Episodes of Care', 'FYI', 'Graphs', 'Growth Chart', 'Label Print', 'LTC Social Work/Case Manager Assessment', 'Patient List Membership', 'PatientPass Education', 'Plan of Care', 'Review Flowsheets', 'Scans', and 'Send Message'. The bottom screenshot, labeled 'After', shows the same interface but with 'Results Review' added to the bottom of the dropdown menu. A red arrow points to the 'Results Review' option in both screenshots.

AMBULATORY - PROVIDER

Add Scheduling Contact QR Code

Application: Ambulatory
Owner: Jose Aponte-Lopez

Enhancement Number:

EPREQ0012946

Requestor:

Stephen O'Mahony,
M.D

Date Reviewed:

08/21/2023

Existing process? Yes

Build Required? Yes

Background: Following a previous request from INC1134202, the Central Access QR code contact number used by the southern region was updated to (844) 795-4968 and prints as patient instructions to schedule imaging services. It was discussed and determined that this process could be throughout the organization not just the southern region.

The request is to use a global central access contact number that includes a broader list of services that can be scheduled by central access and defaulting it to print in the patient's AVS.

Central Access provided a broader contact which is centralized for cardiac and radiologic services. RWJBH *currently does not have a global number to schedule services other than for cardiology/radiology.*

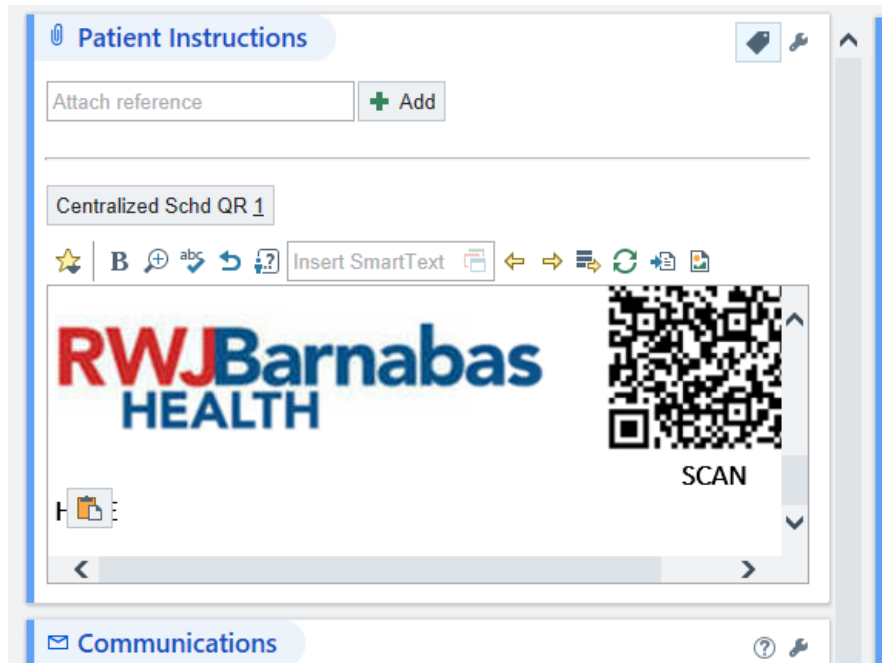

Impact: Systemwide

Solution: Update the Central Access QR code with the new "broader" number 1-844-RWJBH4U (795-2448), keeping it as part of patient instructions. Re-name smart text, from "RWJBH AMB SCHEDULE APPT QR CODE" to "AMB Central Access" for more clarity. Provide a speed button.

QR Scheduling Tool

Application: Ambulatory
Owner: Jose Aponte-Lopez

QR Code Centralized Schd QR Code Speed Button added to Wrap Up tab, Patient Instructions

Blood Product Consents for Non-English Patients

Application: Orders
Owner: Diane Massi

Non-English versions of Informed Consent for Blood Transfusion And Informed Consent for Telephone/Witnessed Blood Transfusion are being translated for patients with a preferred language other than English for these languages:

- Arabic
- Chinese
- Gujarati
- Haitian
- Polish
- Portuguese
- Russian
- Spanish

When opening a Blood or telephone blood consent form it will automatically open the documented preferred language consent form.

The screenshot displays the 'Consents' application interface. At the top, there are tabs for different consent types: 'Add new document type', 'Add', 'Opioid Therapy Agreement', 'Suboxone Treatment Consent', 'Research Consent', 'Anesthesia Consent', and 'Procedural Consent'. Below these, a table lists consents. The first entry is 'Blood Administration Consent' for 'Massi, Diane' on '11/27/2023', with a status of 'Signed'. A red box highlights the 'Blood Administration Consent' tab in the top navigation bar.

Below the table, a red text box states: 'This is an example of the Russian Blood Consent form. Providers can opt to change to another language if the preferred language is incorrect'.

The main part of the screenshot shows a detailed view of the 'Russian Blood Consent form'. The form is titled 'Согласие на переливание крови или компонентов крови' (Consent for blood transfusion or blood components). It includes fields for 'Name/Название: Sitesurvey Nbror', 'DOB/Age/Дата рождения/возраст: 4/1/1992/31 y.o.', and 'MRN: 00301149'. There is a section for 'Interpreter Information (if applicable)' with a 'No' response. The form also includes a section for 'Language used if other than English'.

At the bottom, a 'Change Template' dialog box is open, showing a list of templates. The 'Procedure Blood Consent' template is selected, highlighted with a red box. Other templates include 'Polish Procedure Blood Consent', 'Spanish Procedure Blood Consent', 'Arabic Procedure Blood Consent', 'Chinese Procedure Blood Consent', 'Haitian Creole Procedure Blood Consent', 'Russian Procedure Blood Consent', 'Gujarati Procedure Blood Consent', and 'Portuguese Procedure Blood Consent'.
