

Orders: Finding Post Discharge Follow-Up Orders

After placing follow-up orders through the Discharge (or Postprocedure) navigator, the orders can be found in three areas of the chart. This tip sheet will show how to view signed post discharge follow-up orders through the After Visit Summary, Orders Activity, and Chart Review.

How it Works

Finding Follow-Up Orders in the Chart

Once orders are successfully entered via discharge navigators, you can view them in three areas:

1. After Visit Summary (AVS)

- Select "After Visit Summary" from the Discharge (or Postprocedure) Navigator
- Orders will appear in the "What's Next" section of the AVS

The image shows a workflow for finding follow-up orders. On the left, a screenshot of the Epic Discharge Navigator sidebar highlights the 'After Visit Summary' option. A red arrow points from this option to a screenshot of the 'After Visit Summary' page. The page displays patient information for Charlie-IM Achilles, a list of medications, and a 'What's Next' section with follow-up instructions.

Discharge Navigator Sidebar:

- Discharge
- REVIEW
- BestPractice
- 24-Hr Results
- Unresulted Labs
- Discharge Status
- DISCHARGE DOCUMENTATION
- Problem List
- Cosign Orders
- PatientPass Edu...
- Discharge Summ...
- PLACE DISCHARGE ORDERS
- Rx Routing
- Discharge Orders
- Therapy Plan
- Add'l Therapy Plan
- AFTER VISIT SUMMARY
- After Visit Summ...

After Visit Summary Page:

IP AVS - Discharge Selected to print

AFTER VISIT SUMMARY

Charlie-IM Achilles MRN: 30117369

Acute stomach ulcer with bleeding 1/22/2024 - 1/23/2024 SOM 4E Med/Surg

Instructions

Talk with your provider about your medications

ASK how to take:

- ALUM-MAG HYDROXIDE-SIMETH ORAL
- erythromycin 5 mg/gram (0.5 %) OPHTHALMIC ointment (Romeycin)
- furosemide 20 mg tablet (Lasix)
- hydroCHLORothiazide 12.5 mg capsule (Microzide)
- metFORMIN 500 mg tablet (Glucophage)

Review your updated medication list below.

What's Next

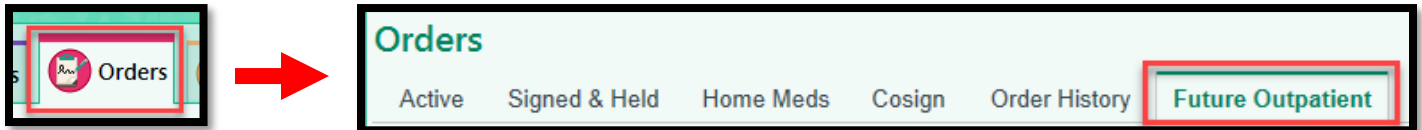

Follow up with Gerrick-Sur Achilles

Follow up within: 3 - 5 days
