

# C diff BPAs

Application: Orders  
Owner: Jean Bjugstad

3 BPAs will be reactivated:

1. 6037 – Fire alert when C diff order is placed on pt with laxatives, tube feeds or oral contrast in the last 48 hours

BestPractice Advisory - Willow, Salix Nbr

**Important (2)**

**\*\*6037 MEDS\*\* C Diff testing is contraindicated on this patient due to the following:**

- ✔ Laxatives administered in the last 48 Hours

**For clinically stable patients (e.g. patients without fever, abdominal pain/distention, or leukocytosis), please wait 48 hours after last administration prior to assessing for ongoing diarrhea. If patient is taking a daily laxative please consider whether patient's stool frequency or consistency is worse than their baseline.**
