I feel absolutely blessed to have had the opportunity to do my 200-hour yoga teacher training with Diana Spiess. I can't imagine there is anyone else with as much knowledge, passion and dedication than Diana. The breadth of topics covered included philosophy, anatomy, Sanskrit, asana, assisting, business, spiritual (energy, chakras, meditation), communication, healing modalities and much more. We studied Iyengar, hot yoga, vinyasa, hatha and were so thoroughly and carefully taught that it actually amazes me how much we were able to learn in 200 hours. Most importantly for me, I feel that I have the literature (lots of books!) and resources (Diana, the entire Essence team, and my classmates) I need to continue to read, learn, and grow into an experienced yoga teacher. Diana has truly taught what the embodiment of what yoga is supposed to be about.

As I was browsing Facebook one day Essence Mind, Body Studio randomly showed up. It immediately caught my attention. Since I am not located in the area, I immediately saw this as a sign. I reached out and found this is exactly what I was seeking and I would drive the distance to receive it. I was told this training with Diana would change my life and it has. I feel equipped in many ways to share with and teach others the 8 paths of yoga, not just postures. I want to change people's lives just as Diana did mine. My spiritual and physical needs have been met and I am ever so grateful.

Life is beautiful. It is infinite. This journey has awakened the wisdom of my soul and I feel now that I can contribute in a much better way to making the Universe lighter and happier. Namaste. *—Susan Marks, 2017 current student*

I highly recommend the 200 hour YTT training through Essence. As a current member of the YTT training class, I feel Diana has provided a very broad base of knowledge for us to build our new yoga careers on. We have focused on so many aspects of yoga including anatomy, meditation, healthy eating, as well as the asanas. Through this training you will explore ways yoga can enhance your everyday living and deepen any religious practice you may currently participate in. I feel as though I am taking away so much more than I expected when I first signed up for training. It is an opportunity I encourage everyone to experience. *—Amy Kajca, 2015 graduate*

The Yoga Teacher Training (YTT) offered through Essence under the guidance of owner Diana Spiess is [SO] much more than a yoga teacher training. It is a 10 month immersion into health and wellness exploration and education through multiple modalities. We've covered topics such as nutrition, essential oils, energy work, and crystals to name a few. While in the end you earn your 200 hour certification to teach yoga, the certification is minor compared to the overall life altering transformation you will undergo. Diana is constantly seeking out new opportunities of growth for her students by expanding upon her own education. Her wealth of knowledge is vast and unparalleled.

The physical adjustments to my alignment that Diana has performed have provided relief from pain. The information regarding nutrition she shares regularly has helped me adopt not only healthier eating habits, but also a healthier relationship with food and exercise. The energy sessions I have had with her have been the most helpful of all. Diana uses a combination of aromatherapy, sound vibration therapy, Reiki, and acupuncture to assist me in releasing pent-up emotional and physical tension, and help me become more balanced in every way.

I always eagerly look forward to working with Diana to be able soak up more information, be further inspired, feel better physically and emotionally, and continue on my path of self-growth!

Yoga teacher training is a huge commitment that I have enjoyed immensely. Learning under Diana has been great. Diana has so much to offer, she brings such a wide variety of skills and background to all of our courses each month. She is so knowledgeable, I am proud to have her as my mentor. Being over half way through our 10 months of Yoga training I can't imagine learning this from anyone else. The topics we cover in our training are so vast and huge but somehow Diana makes it all seem attainable and manageable. Her guidance has been amazing and something that I rely on when life gets hectic. Yoga Teacher Training has changed me and I will be sad when the training weekends are over. I know that even after the weekends are over Diana will always be in my life and there for me when I need it.
