Practical containment and sampling - Singapore

IChemE Pharma Special Interest Group

Date From: 18 January 2017
Location: Singapore

An evening event with technical presentation by Torsten Belger and John Corr (ProSys), and time for networking over refreshments. Registration from 18:00; the event will commence at 18:30 and close at 21:00.

This event is open to all. To encourage more participants and members, attendance at the event is free of charge and open to all. Bring along your colleagues working in the Pharmaceutical industry in Singapore, and introduce them to the Pharma Special Interest Group and to IChemE.

Advance booking is essential. Register now >>

Topic

Presentation 1
Practical containment – how to address and solve HAPI/ADC containment challenges
Presentation 2
Practical sampling - current techniques for in process solids & liquid sampling in the pharmaceutical industry

Speaker

Torsten Belger
Torsten Belger is currently employed as the Technical Director with ProSys Containment and Sampling Technology in County Cork, Republic of Ireland. He is a German National, who was educated at Universities in Germany and in the UK. Torsten is well known within the containment industry and has been closely involved in the specification, design and conceptualisation of high containment systems for the pharmaceutical industry throughout the world for over 20 years. He has published a number of articles in leading international chemical/pharmaceutical industry publications, as well as chaired and contributed to international containment seminars and conferences run by institutions like ISPE, Konzept Heidelberg, Next Level Pharma, BOHS, etc.

John Corr
John is an Irish National and is a Qualified Mechanical Engineer, who was educated in Dublin Ireland. John has worked in various roles at ProSys Containment and Sampling Technology, covering Detail Design, Project Engineering and Customer Service and he has an in-depth understanding and wealth of experience of applications for solids & liquid sampling within the pharmaceutical process industry. John is Technical Specialist for all Sampling Equipment supplied worldwide.

Venue

The event will take place at the
National University of Singapore
Blk E3, Engineering Drive 3
Level 6, Unit 1, Room E3-06-01
