Text-Based Opinion

An essay that states what you think or feel about a topic you read about.

I do not think kids should have homework. There are so many reasons why homework is not a good idea!

One reason is that homework can be hard to do at home. Some kids do not have a mom or dad at home to help. It is not fair to ask kids to do hard work all on their own.

Another reason is that homework takes up too much time. Kids need time to play and have fun! Some kids have clubs or sports after school. Homework gets in the way.

That is why I do not think kids should have homework. After school, kids should get to play!
