

# Downloading Mobile App

## iOS (Apple) Users:

**Open the App Store on your iOS device.  
Search for OnTarget by Abound Health**

**Once you find the application in the app store, click download to install. (Please note, the icon for the application is shown below within the Android instructions; same icon)**

**Once downloaded, open the application.  
You will be asked to location use for the application. Choose "While Using this Application".**

**Log into the new mobile application using the same credentials you use for the OnTarget mobile site and OnTarget full site.**

## Android Users Click the link listed here:

**<https://play.google.com/store/apps/details?id=com.ontargetconnect.ontarget>**

**Download and install the application.  
Once installed, open the application.**

**You will be asked to location use for the application. Choose "While Using this Application".**

**Log into the new mobile application using the same credentials you use for the OnTarget mobile site and OnTarget full site.**
