Statement: Update on Clay Court Surfaces

Date: August 12, 2025

Dear Members / Guests

Tennis Court Test Results:

As communicated previously we had our tennis court surfaces and stored clay bags tested by an independent specialist contractor. **All our test results have come back negative for the detection of asbestos.**

What does this mean?

Our tennis courts continue to be safe for all to use. However, until further notice, we are not permitted to use our stored bags of clay. We are in the process of investigating a different supplier/product. Until we have new product we cannot do any patching / revitalizing of our courts.

Increased watering and application of Calcium will continue during this dry spell.

Thank you so much for your understanding and patience during this incredibly stressful time.

Yours in Sport

Mike Tait
Executive Director
Ottawa Tennis Club
