Pre-K CLASS© Observation Training

Participants will learn how development affects classroom interactions and the link between effective teacher-child interactions as it relates to learning. Training includes an overview of the CLASS measure and its uses, and will prepare you to assess teaching quality based on the CLASS system. At the conclusion of the training, participants will have access to online reliability testing. Upon successful completion of the CLASS reliability test, participants *may* achieve certification.

Registration - $275 (plus shipping)

REGISTER by **August *18th***

When registering you will need the following information:
