THE FINAL CHARRETTE

SATURDAY, OCTOBER 26

10 AM — 1 PM

THE UNVEILING OF THE COMMUNITY-BASED VISION
FOR THE REPLACEMENT PASSENGER TERMINAL

2821 N. Hollywood Way, Burbank, CA 91505
Free Parking in Lot A at the Intersection of Hollywood Way and Winona Ave.

CHARRETTE PROCESS

Designing a replacement to an 89-year-old airport terminal is no easy task. That's why we turned to our community for help.

Over the past eight months, Hollywood Burbank Airport held five design charrette workshops in the City of Burbank, as well as workshops in Glendale, Los Angeles and Pasadena. Hundreds have presented their vision for the replacement passenger terminal (RPT) that will serve our community for generations to come.

The workshops focused primarily on safety improvements, design features and amenities that the community and passengers would like to see in the RPT.

We're thrilled to invite our friends and neighbors to the sixth and final charrette where the entire community-based vision for the RPT will be on display.

Charrette Six

The sixth charrette is a celebration of our community's participation and vision for the RPT.

The open house begins at 10:00 a.m. on the site of the future 14-gate RPT.

All are welcome to join.

Free parking in Lot A at the intersection of Hollywood Way and Winona Ave.
