

2020 Summer School Update- May 18, 2020
St. Philip the Apostle School

Dear Parents,

Attached is the original summer program for the summer enrichment classes. The ones that are now red have been canceled because they are not feasible to do remotely. The remaining classes will be held on Google Classroom with live tutorials for part of the class time and UTube video lessons. The Friday before your week of classes, you will need to come to SPAS to pick up the supplies that your child will need for their class. All teachers will be coordinating at the same time. We will let you know the pick up time at a later date. Please note, the teachers are trying to teach the class from their original descriptions, but some things may change or be adapted. No matter what, your children will have a blast!

If your class has been canceled, you will receive an email from Mrs. Gripp regarding your refund. If your check was cashed, you will receive a refund check as soon as possible. If your check was not cashed (School closed so quickly, some were not deposited.), your check will be shredded. If you are trying to register, please scan the registration papers to Mrs. Gripp at pgripp@stphiliptheapostle.org by May 27. Make sure that you are registering for classes that **HAVE NOT** been canceled. Summer enrichment classes have a limited enrollment, and at this time, many are almost $\frac{1}{2}$ full from registration that began in February. You will be notified immediately upon receipt of your registration if there is still availability. **DO NOT** mail a check to the school until you get a confirmation email. Please note that we are not taking non-SPAS students this summer, so don't spread the word.

Thank you,
Pam Gripp
