

Coding Week

Week 1, June 9 - June 13

Explore the exciting world of coding! Junior high students will learn Java through hands-on projects, design challenges, and game creation while developing key programming skills.

Creative Writing Week

Week 1, June 9 - June 13
Week 3, June 23 - June 27

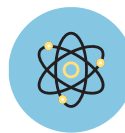

Use your words to promote justice and liberation. Rising 7th to 9th graders will explore individual and collaborative activities, composing a range of fiction and non-fiction genres including micro-memoir, poetry, flash fiction and more.

Arts Week

Week 2, June 16 - June 20

Students dive into the visual and performing arts, experiencing FSHA's vibrant arts community. Through workshops across the VAPA program, they develop diverse skills and build confidence.

Science Week

Week 3, June 23 - June 27

In 2025, our focus is on birds, completing our trilogy on arthropods, plants, and birds. Students will develop scientific skills, collaborate, and problem-solve on the Hill.

*Where possibilities
are sky-high!*

Summer on the Hill is part of our Center for Sustainability and Justice. The three logos represent the development of our summer athletes and students and the ecological succession in natural environments like the San Gabriel mountains viewed from our Hill. In the first logo, the lichen and mosses on the rocks absorb nutrients like primary school students absorb new skills. Grasses and annuals, blossoming like our junior high summer students, replace the pioneer species in the second logo. In the third logo, a climax community has formed, represented by tertiary animals and a pine forest akin to our high school students, where the balance of the community depends on and is enhanced by one another.

Engineering & Design Week

Week 4, June 30 – July 3

We ignite curiosity and innovation as students build engineering and computer science skills using our state-of-the-art 3D printers and laser cutter. As part of our ongoing trilogy exploring arthropods, plants, and birds, 2025 is the Year of the Bird—challenging students to design, create, and problem-solve through hands-on projects.

Speech & Debate, Improv

Week 5, July 7 – 11

Speech, debate, and improv empower students for success in academics, service, and life. Mornings build confidence in public speaking through research, logic, and persuasive expression. Afternoons spark creativity with improvisation, role-playing, and teamwork.

Spanish Week

Week 6, July 14 – July 18

Connect with others through language and cultural knowledge. Whether your daughter is new to Spanish or has some experience, this camp will help enhance her confidence. Learning a new language opens doors to understanding and participating in local and global communities.

SCHEDULE 8:30 AM – 2:30 PM

Coding Week

Week 1 June 9 – June 13

Creative Writing Week

Week 1 June 9 – June 13

Art Week

Week 2 June 16 – June 20
