**Soil & Soul** brings together the people who support agriculture every day to strengthen relationships, share resources, and build support systems that help producers thrive. As the second in a two-part series, this gathering is a producer focused event designed for farmers, ranchers, spouses, industry professionals, supporters, and any others who work closely with producers. Through shared conversation, learning, connection, and a meal, we hope to build understanding around stress and well-being while strengthening a more supportive ag community.
