

Student Teams Expectations for Synchronous Learning

- January 14th, 18th, 19th, and 20th students will attend synchronous learning via Microsoft Teams.
- Each day is a normal bell schedule for that day. The bell schedule can be found on the EHS website.
- Students will join their class meeting through their classroom Teams page or via their Teams calendar.
- Students will be on time and adhere to the established bell schedule. School will begin (7:30) and end normally.
- Students will stay online for the entirety of their class.
- If students feel more comfortable, they can use a picture instead of a live video, blur their background or use Teams background so as not to invade privacy. At times, teachers may request students turn on their cameras.
- Students must mute their mic when not speaking.
- Students should try and be in a quiet space during class meetings.
- Students can use headphones to minimize distractions and background noise.
- Students will use the “meeting chat” as directed by the teachers. All posts need to be school appropriate.
- Students need to have cell phones off and other distractions away from them during synchronous instruction.
