300 students from all over the world. In 36 hours, teams created unique and innovative projects for a variety of different categories. We had 6 sponsors provide over 35k worth of prizes for our participants.

ELIGIBILITY

Open to all students middle school to undergrad.
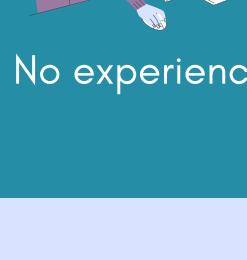

Team sizes can range from 1 to 5 members.

No experience needed!

JOIN THE SERVER!

https://tinyurl.com/hackTdiscord

SUBMISSIONS

2-minute video demo detailing all the features.

we're looking for **business feasibility, the "wow" factor, realistic capability and level of innovation.**

PRIZES

COMING SOON!

Rules

1: Please be respectful to everyone inside and outside of the server. Being rude or disrespectful to anyone could result in a moderation action.

2: Spamming (sending the same message indiscriminately to large numbers of recipients on the Internet) is not allowed in any channel on this server, voice or chat. Spamming will result in a moderation action.

3: Swearing and NSFW content (Not Suitable For Work) is not allowed - this includes bypassing the filters.

4: Targeting someone in order to provoke them is forbidden. This goes hand in hand with rule 1. Being disrespectful and rude to someone in order to provoke them will result in a moderation action.

5: Attempting to 'raid' this server or other servers will result in an immediate ban.

6:Messages with potentially harmful files (.exes, etc) will be removed immediately. Repeated attempts at posting messages with harmful files will result in harsh moderation actions.

11: No religious and/or politics or other controversial topics.

12: Don't harass/spam users through DMs.

Frequently asked questions
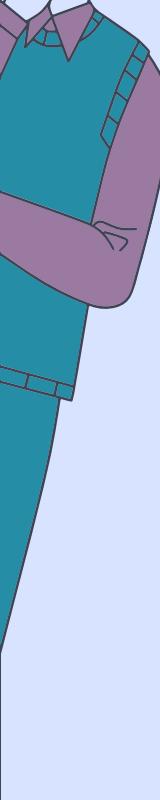

What is a hackathon?
(noun) an event in which a large number of people meet to engage in collaborative computer programming.

What is HackTable?
HackTable is a 36-hour online hackathon for students across the globe. Students of all levels of computer science experience ranging from novices to experienced coders can find categories that can challenge them to think critically.

What if I have never participated before or don't know to code?
Don't worry if this is your first time coding or attending a hackathon. We will provide resources, opportunities, workshops, and mentors.

Who has ownership over the project I create?
You and your team have full ownership over what you create.

What if I can't find a team?
We will host team building events in the beginning of the hackathon.
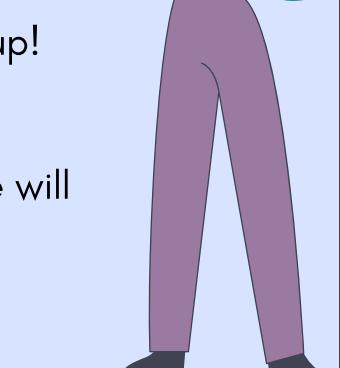

Can I change my mind?
Yes, you can cancel at anytime, so there's no harm in signing up!

What if my question was not covered?
You can always email us at *hacktable@everstem.org* and we will respond to you, or join our **discord** and ask the organizers!
