

WEISSMAN® SIZE CHARTS

How To Measure Dancers

- **Bust/Chest** - Measure around the fullest part of the chest, keeping the tape horizontal, and have dancers stand with arms down at their sides.
- **Waist** - To identify the natural waistline, instruct dancers to bend over to one side and have the measurer place a finger at the indentation. As the dancers stand up, use this point as the indicator for where to measure around the waist.
- **Hips** - Have dancers stand with their feet together and measure around the fullest part of the buttocks.
- **Girth** - **Girth is the most important measurement when determining size on one-piece garments!** To measure girth, place a tape measure at the top of one shoulder where a leotard strap sits, then down through the legs and back to the same shoulder. The measuring tape should be close to the body but not tight.
- **Inseam** - Place the measuring tape at the inner leg and measure from that point to the floor.
