National POLST Collaborative

NPC WEBINAR

Advance Care Planning and POLST in Long-Term Care

October 7, 2026 | 11:00 AM – 12:00 PM PT

Presented By

Karl Steinberg, MD, CMD, FPALTC

Annette Meares, DNP, RN, HEC-C

KJ Page, RNC, LN

About the Webinar

Advance care planning helps ensure that care reflects what matters most to each resident. This webinar will explore the role of Advance Directives and the POLST form in long-term care, including when each is appropriate and how healthcare teams can incorporate advance care planning into practice.

What You'll Learn

- Define the purpose and function of Advance Care Planning (ACP), distinguish the steps and stages of ACP, and differentiate Advance Directives (ADs) from the POLST form.
- Identify individuals who are appropriate candidates for ADs and POLST completion and demonstrate how to incorporate ACP, ADs, and POLST into clinical practice.
- Recognize the value of interdisciplinary team roles in supporting ACP and POLST implementation in long-term care settings.

Scan the QR code to register.

POLST is a portable medical order available in most states.
