

7-13 March 2021 is World Glaucoma Week

March is around the corner, and we are drawing a spotlight on Glaucoma again to mark World Glaucoma Week. The **Focus On Glaucoma** initiative this year will be from 7-13 March 2021. This year too, IAPB is partnering with international organisations and experts in glaucoma care from around the world to draw a spotlight on the fourth leading cause of blindness.

We are marking the week with a series of activities: lectures, webinars, blog posts – [and a live event in Australia!](#)

Do register for our free webinars covering a variety of timezones and discussing the impact of glaucoma across geographies and countries.

IAPB acknowledges the support from Allergan, an AbbVie company, in delivering the Focus on Glaucoma initiative.

The graphic features a dark blue background with a large, light blue abstract shape on the right. On the left, the text reads: **FOCUS ON GLAUCOMA**, **Glaucoma care in the pandemic (Latin America)**, **08 March | 18:30 CST**, **FREE REGISTRATION**, and **IAPB.ORG/WGW2021**. On the right, five circular portraits of speakers are arranged in two rows. The top row includes Francisco M Castro, Ana M Vasquez, and Mariana B Fernández. The bottom row includes Alberto Diniz-Filho and Carolina Gracitelli. The IAPB logo is in the top right corner. At the bottom left are social media icons and the hashtag #WGW2021. At the bottom right is the Allergan logo with the text 'Supported by: Allergan an AbbVie company'.

Affordable & Sustainable Glaucoma Care (South East Asia)

The webinar aims to deliberate on successful examples of glaucoma management which are affordable and sustainable by design (instrumentation) and intervention (community level). Key discussion points include affordable designs, results from a Glaucoma Drainage Device designed for and built in Indonesia, a model glaucoma awareness programme and steps to build a sustainable practice at a community level.

Date: Monday, March 8th, 2021; Time: 13:00 – 14:00 IST
