

## SVOSH-FUTO-Nigeria is Chapter of the Month

The SVOSH chapter at the Federal University of Technology Owerri in Nigeria, SVOSH-FUTO, has been nominated as Chapter of the Month. Congratulations!!

The focus of SVOSH-FUTO's work has been awareness raising and providing eye health services to the community. This important work required strong teamwork and the leadership of their faculty adviser Dr Edith Daniel-Nwosu and President Nwokorie Ijeoma. A few activities that SVOSH-FUTO-Nigeria organized are:

SVOSH-FUTO started by raising awareness among the optometry students at FUTO about the objectives and work of VOSH/International. SVOSH-FUTO used the PPT VOSH/International uses to introduce its work to new chapters. We are delighted to see their agency and motivation to share this information widely among all students. This Congress with the optometry students assisted in highlighting and motivating all the students on the need for and the contributions of voluntary work in the field of eye care.

children's vision

WORLD  
SIGHT DAY

World Sight Day focused on Children's Vision and SVOSH-FUTO organised an Eye Screening for FUTO Staff Primary School Kids. This free screening activity was important to prevent and identify any early eye healthcare problems in this group of active school children.

The Nigerian Optometry Students Association (NOSA) organises a Health Week regularly. SVOSH-FUTO participated in providing free eye screening for the local community. In this way, people within and around FUTO's venue were served and vision problems were identified and addressed.

SVOSH-FUTO and NOSA in a joint vision screening activity

As President Nwokorie Ijeoma says “Our students carried out an eye health outreach program at Ihiagwa, one of the rural communities in FUTO environs. bringing eye care services to the rural community. The experience was a great achievement on our part as we didn’t only give the community an opportunity to access eye care services, but we also got to practice our skills in the actual world and to the benefit of many”.

SVOSH-FUTO and NOSA students

SVOSH-FUTO Faculty Adviser Dr Edith Daniel-Nwosu has become a VOSH Ambassador embracing the humanitarian objectives of VOSH/International and supporting her students on their humanitarian journey. You can watch an interview with Dr Nwosu [here](#).

Dr. Edith Daniel-Nwosu  
Faculty Adviser SVOSH-FUTO-Nigeria

Thank you, SVOSH-FUTO for sharing your experience

SVOSH-FUTO is Chapter of the Month-  
December 2024

Congratulations to all the members and  
leaders of SVOSH-FUTO
