Senate HELP Committee Section-by-Section
Senate HELP Committee One-Pager
Senate Appropriations Committee Summary

Key provisions across federal departments and agencies of interest to Institutions of Higher Education as follows:

**Education**

- $30.75 billion for an Education Stabilization Fund for states, school districts and institutions of higher education for costs related to coronavirus, including:
  - $14.25 billion higher education emergency relief for institutions of higher education to prevent, prepare for, and respond to coronavirus. Funds may be used to defray expenses for institutions of higher education, such as lost revenue, technology costs associated with a transition to distance education, and grants to students for food, housing, course materials, technology, health care, and child care.
    - 90% to each institution of higher education to prevent, prepare for, and respond to coronavirus, by apportioning it as follows:
      - 75% according to the relative share of full-time equivalent enrollment of Federal Pell Grant recipients who are not exclusively enrolled in distance education courses prior to the coronavirus emergency; and
      - 25% according to the relative share of full-time equivalent enrollment of students who were not Federal Pell Grant recipients who are not exclusively enrolled in distance education courses prior to the coronavirus emergency.
    - Note: Once this formula is taken into account, no less than 50% of the aid the institution receives must be to provide emergency financial aid grants to students for expenses related to the disruption of campus operations due to coronavirus, including eligible expenses under a student’s cost of attendance, such as food, housing, course materials, technology, health care, and child care.
  - $2.95 billion for the Governor’s Emergency Education Relief Fund for each Governor to allocate at their discretion for emergency support grants to local educational agencies that the State educational agency deems have been most significantly impacted by coronavirus. These funds will support the ability of such local educational agencies...
to continue to provide educational services to their students and to support the on-going operations of the local educational agency; and provide emergency support through grants to institutions of higher education serving students within the State.

- Each state’s award depends on a formula of 60% on the basis of relative population of individuals 5-24 and 40% on relative number of children counted under a part of ESEA. Governors will decide how the funding is spent, between K-12 and higher education.
- ED must give notice of applications to states within 30 days of enactment and approve or deny applications within 30 days of receipt.

- Campus-based aid waivers: Waives the institutional matching requirement for campus-based aid programs and allows institutions to transfer unused work-study funds to be used for supplemental grants.
- SEOG for emergency aid: Allows institutions to award additional SEOG funds to students impacted by COVID-19.
- Continuing federal work study: Allows institutions to issue work-study payments to student who are unable to work due to work-place closures as a lump sum or in payments similar to paychecks.
- Adjustments of subsidized loan limits: For students who dropped out of school as a result of COVID-19, excludes the term from counting toward lifetime subsidized loan eligibility.
- Exclusion from Federal Pell Grant: For students who dropped out of school as a result of COVID-19, excludes the term from counting toward lifetime Pell eligibility.
- Institutional Refund and Federal Student Loan Flexibility: Waives the requirement that institutions calculate the amount of grant or loan assistance that the institution must return to the Secretary in the case of students who dropped out of school as a result of COVID-19.
- Satisfactory Progress: For students who dropped out of school as a result of COVID-19, the student’s grades do not affect a student’s federal academic requirements to continue to receive Pell Grants or student loans.
- Temporary relief for federal student loan borrowers: Allows the Secretary to defer student loan payments, principal, and interest for 3 months without penalty to the student. The measure also allows the Secretary to defer for an additional 3 months if necessary pursuant to the public health emergency declaration.

**Health and Human Services**

- Reauthorizes health professions workforce programs and reauthorizes and updates Public Health Services Act programs to support clinician training and faculty development, including the training of practitioners in family medicine, general internal medicine, geriatrics, pediatrics, and other medical specialties.
- Reauthorizes and updates Public Health Services Act programs related to nurse workforce training.
- National Institutes of Health - $945 million to support research to expand on prior research plans, including developing an improved understanding of the prevalence of COVID-19, its transmission
and the natural history of infection, and novel approaches to diagnosing the disease and past infection, and developing countermeasures for the prevention and treatment of its various stages.

- Biomedical Advanced Research and Development Authority
  - More than $27 billion to support research and development of vaccine, therapeutics, and diagnostics to prevent or treat the effects of coronavirus, including, but not limited to:
    - Funding to support research related to antibiotic resistant secondary infections associated with coronavirus; and
    - Workforce modernization and increased telehealth access and infrastructure to increase access to digital healthcare delivery.

**National Science Foundation**
- $75 million to support research at molecular, cellular, physiological and ecological levels to better understand coronavirus genetics, modes of action, transmission, virulence and population dynamics. NSF supports research activities at more than 2,000 research institutions across the U.S. and is ready to mobilize the full force of the academic community including through Rapid Response Research (RAPID) proposals.

**National Institute of Standards and Technology**
- $6 million to provide continuity of operations and to conduct research and measurement science to support testing and treatment of coronavirus.

**Defense**
- $415 million for medical research programs to develop promising vaccines and anti-viral pharmaceuticals.

**National Endowment for the Arts and National Endowment of the Humanities**
- $75 million for each independent agency.

**Energy**
- $99.5 million is provided to Office of Science for costs related to equipment, personnel, and operations to support research on the coronavirus.

**Treasury**
- Allowance of partial above the line deduction for charitable contributions - Encourages people to contribute to charitable organizations in 2020 by permitting them to deduct up to $300 of cash contributions, whether they itemize their deductions or not.
- Modification of limitations on charitable contributions during 2020 - Increases the limitations on deductions for charitable contributions by individuals who itemize, as well as corporations. For
individuals, the 50-percent of adjusted gross income limitation is suspended for 2020. For corporations, the 10-percent limitation is increased to 25 percent of taxable income.

- Exclusion for certain employer payments of student loans - Enables employers to provide a student loan repayment benefit to employees on a tax-free basis up to $5,250 annually toward an employee’s student loans. Payment would be excluded from the employee’s income. The $5,250 cap applies to both the new student loan repayment benefit as well as other educational assistance (e.g., tuition, fees, books) provided by the employer under current law. Applies to any student loan payments made by an employer on behalf of an employee before January 1, 2021.
