From the Ground Up 2026

Innovation & Collaboration Driving Impact

From the Ground Up 2026 is more than a conference — it's where vision takes root and momentum builds. For two days, leaders in education, business, and community development come together under one roof to explore new ways to work, build, and grow — where ideas move into action and partnerships turn potential into progress.

Hosted at the Grand Casino Hotel & Resort in Shawnee, the event hums with the energy of collaboration: educators and entrepreneurs swapping ideas, industry and community leaders mapping partnerships that spark shared investment, and innovators introducing tools that make systems work better for everyone.

Each element fosters connection that counts — helping ideas, organizations, and people find the partnerships they need to move forward. From keynotes that challenge assumptions and sessions that turn strategy into action, to networking that sparks real collaboration, From the Ground Up is built for people ready to shape what comes next.

Here, innovation has a heartbeat and collaboration has a seat at every table. Together, we're building the future of work, learning, and community — stronger by design.
