WE ARE HIRING

The Creek County Health Department has two positions available for a

Registered Nurse II

The functions performed by employees in this job family will vary by level, but may include the following:

- **The services provided include child health, family planning, WIC, general communicable disease and sexually transmitted disease clinics.**
- **Participate in community health education programs and provide direction to community health workers and clinical support staff.**
- **Position promotes tobacco cessation, prevention of communicable diseases through immunization, sexually transmitted disease education, obesity awareness and prevention and pregnancy prevention.**
- **This position will respond to public health emergencies including, but not limited to, natural disasters, disease outbreaks or catastrophic events.**

·Assesses health status of individuals, families, and communities; develops plans and implements appropriate nursing interventions.

·Evaluates and determines health resources necessary to meet individual, family and community health needs.

·Delivers professional nursing care in an assigned unit, clinic, home, or other setting.

·Educates individuals, families, communities, and members of the health care team about the principles of disease prevention and health promotion.

·Provides supervision to other professional or paraprofessional personnel; collaborates with other professionals in the management of health care.

·Delegates tasks as may safely be performed by others, consistent with educational preparation and that do not conflict with the provisions of the Oklahoma Nursing Practice Act.

·Assures quality health care through use of various measures such as record review, peer review, direct observation, and assessment of individual, family, and community for the desired outcome.

·Performs specialized nursing functions as educationally prepared.

·Being present at the office is an essential function of the job.

·Other duties as assigned.
