# SWITCHRAIL MODULAR COMPONENTS

| | | | |
|---|---|---|---|
| DSBP2 - DOUBLE STEM BASE PLATE | EBP - END BASE PLATE | DSCRP - DOUBLE STEM CORNER PLATE | SSLRP - SINGLE STEM LEFT ROOF PLATE |
| SSRRP - SINGLE STEM RIGHT ROOF PLATE | DSRP - DOUBLE STEM ROOF PLATE | SRPC - SWITCHRAIL PARAPET CLAMP | SRPCX - SWITCHRAIL PARAPET CLAMP EXT. |
| DSHC - DOUBLE STEM HORIZONTAL CLAMP | SRP8 - SWITCHRAIL PANEL 8 FOOT | SG3 - SWING GATE 2' TO 3' | SG5 - SWING GATE 3' TO 5' |
| SRT - SWITCHRAIL TUBING |  SRP42 - SWITCHRAIL POST - 42" | SWC - SWIVEL CLAMP | SMTOA - SINGLE MAN TIE-OFF |
| CW50 - COUNTER WEIGHT PLATE 50# |  SWP - SHEETING WALL POST | LCSC - LEFT CONCRETSTAIR CLAMP | RCSC - RIGHT CONCRETE STAIR CLAMP |
| SSP - STEEL STAIR POST LEFT/RIGHT | DSPSB - DOUBLE STEM POURSTOP BRACKET | SSPSB - SINGLE STEM POURSTOP BRACKET | WB-WALL BRACKET |

# THE SWITCHRAIL SOLUTION FROM EXCAVATION TO POST CONSTRUCTION

## POURSTOP

### KEY FEATURES & BENEFITS

**FAST & EASY INSTALLATION**
Installs in minutes, detaches easily after pour. Saves time on every project. No welding or drilling required—clamps securely in place before concrete pour.

**COMPREHENSIVE PROTECTION**
Protects workers throughout every phase—from site prep to post-pour. Engineered for reliability in demanding environments.

**REDUCED COSTS & LIABILITY**
Significant savings on labor and materials. Minimizes downtime and repair work.

### MODULAR SAFETY SYSTEMS DESIGNED FOR EFFICIENCY AND PEACE OF MIND

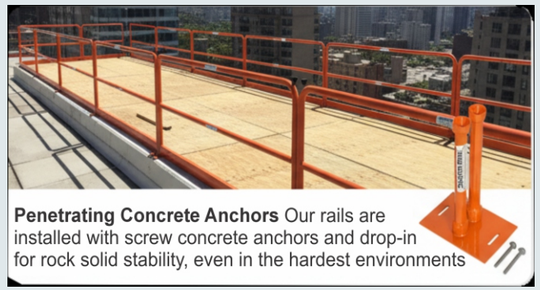
Switchrail's Pourstop system **replaces traditional weld stanchions and cumbersome steel cable** installations with a smarter, modular solution.
Securely clamp the Pourstop to the edge of a beam on a lip before pouring concrete no welding, no hassle. Smooth removal leaves flawless surfaces behind.

### ENHANCED SAFETY, REDUCED COSTS

Protect your workers throughout every phase of construction from site prep to post-pour with continuous fall protection that adapts as your site evolves.
**Avoid costly repairs** and minimize downtime with a solution built for both safety and savings.

## STAIRS

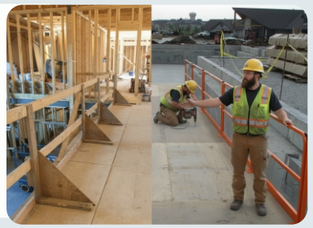
## PENETRATING



**Penetrating Concrete Anchors** Our rails are installed with screw concrete anchors and drop-in for rock solid stability, even in the hardest environments

**Industry-Leading Durability**
Engineered for longevity, our modular rails withstand years of use without compromised.

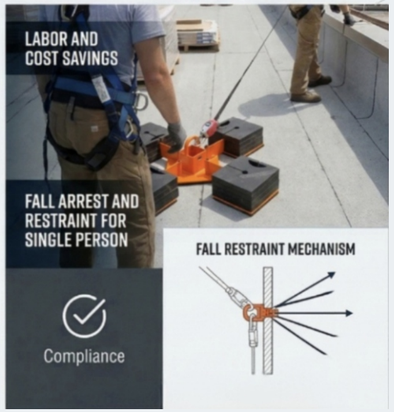
Here's the new SwitchRail "way" and the "old way" (stick built 2×4 railing discarded to the right). Our configuration was installed in approximately 10 min.



Labor Saving | Cost Savings | Compliance

## NON-PENETRATING

### HORIZONTAL & PARAPET CLAMPS

### COUNTERWEIGHT SYSTEMS


### SINGLE MAN NON-PENETRATING TIE-OFF
