

Hawaii Wing COVID-19 Phase 0 Guidelines

Current as of 26 September 2020. All previous versions rescinded.

Description:

- In-person activities limited to essential missions only, with risk mitigation below. Maximize virtual opportunities for training, professional development, aerospace education, and cadet programs. Review current waivers for: various cadet promotion and participation requirements; aircrew training and qualification; member onboarding (e.g. fingerprints).

In-Person Activities:

- Essential Missions Only
- Minimum essential number Low-Risk Senior Members
- See Risk Category slide for risk determination
- Clean facilities before and after
- Hand sanitizer available
- Health/Temperature check prior to entry
- Facemasks
- 6' physical distancing
- Handwashing breaks

Aircraft and Vehicles:

- Aircraft may be flown for maintenance and weekly engine runs
- Self –Assessment and temp check prior to mission
- IMSAFE tool pre-flight
- Decontamination of aircraft/vehicle pre/post operation
 - **DO NOT** use ammonia cleaners on aircraft glass screens
 - **DO** Use disinfecting solution of 70% isopropyl alcohol
- Surgical face masks if more than one person from different households (microphone easily fits under mask)
- Hand washing as needed using hand sanitizer 70%+ ETOH

Hawaii Wing COVID-19 Phase II Guidelines

Current as of 26 September 2020. All previous versions rescinded.

Description:

- Limited numbers of Low-Risk Cadet and Senior Members may participate in In-Person meetings (including Day-Long Events), training, and flight activities, subject to the risk-mitigation below. Continue to maximize virtual opportunities for training, professional development, aerospace education, and cadet programs. Review current waivers for various cadet promotion and participation requirements.

In-Person Activities:

- Up to 50 Low Risk Members (**or county limit**), including cadets, per gathering
- Day-Long activities authorized
- See Risk Category slide for member risk determination
- Clean facilities before and after. Hand sanitizer available.
- Health/Temperature check prior to entry
- Handwashing breaks
- Facemasks: Indoor always / Outdoor: when not exercising
- 6' physical distancing

Aircraft and Vehicles:

- Aircraft may be flown for all purposes
- Self –Assessment and temp check prior to mission
- IMSAFE tool pre-flight
- Decontamination of aircraft/vehicle pre/post operation
 - **DO NOT** use ammonia cleaners on aircraft glass screens
 - **DO** Use disinfecting solution of 70% isopropyl alcohol
- Surgical face masks if more than one person from different households (microphone easily fits under mask)
- Hand washing as needed using sanitizer 70%+ ETOH

Determining COVID-19 Risk Category

High Risk Personnel Definitions:

- [People 65 years and older](#)
- People who live in a nursing home or long-term care facility
- People of all ages with [underlying medical conditions, particularly if not well controlled](#), including:
 - People with chronic lung disease or moderate to severe asthma
 - People who have serious heart conditions
 - People who are immunocompromised
 - Many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications
 - People with severe obesity (body mass index [BMI] of 40 or higher)
 - People with diabetes and liver disease
 - People with chronic kidney disease undergoing dialysis
- People who work in nursing homes, hospitals, and other health care facilities
- Members/parents will make the determination of high/low risk. Hawaii Wing will not question that determination

Please Note These are suggested guidelines IAW CDC recommendations--the member or parent will make determination of low or high risk.

Ref: <https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-at-higher-risk.html>

*Note: Consider personnel who live with in the above categories as potentially high risk.
