- Section XIII (VIII) Air/Gas, Steam, Liquid ("UV")
- Section IV (XIII) Hot Water Boiler Service ("HV")

- 1/4" NPT through 6" flanged
- Full vacuum to 7000 PSIG
- In Stock

### ASME Boiler & Pressure Vessel Code & Non-Code Pressure Relief

**VRC Protx** is a proud stocking Certified Assembler for **Kunkle** pressure relief valve products. With local on-hand inventory, we assemble, test and certify safety, safety/relief and relief valves for Code services: ASME Sect. I Boiler ("V") for steam and special use applications, Sect. XIII (VIII) ("UV") air/gas, steam and liquid service, as well as non-Code valves for other specific applications. Finished off-the-shelf valves are on-hand for ASME Sect. IV (XIII) ("HV") hot water boiler applications and low pressure steam heating boiler service for immediate shipment.

Please contact us for more information and for any of your valve service needs.
